EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 35-41, 54-55, 57, and 59.

The cancellation of claims set forth has been made to put the case ready to issue since these claims have been withdrawn from consideration as being directed to non-elected inventions and the election had been treated as an election without traverse noted in the previous office action.

The following is an examiner's statement of reasons for allowance: allowance of claims 26-34, 42-49, and 58 is indicated because the prior art of record does not show or fairly suggest at least a portion thermally-isolated micro-platform is subjected to heat pulses for thermally trimming in the manner recited in claim 26 and wherein the heat source dissipates more power at the boundaries of the heat targeted region where there is greater heat loss when the temperature of a trimmable resistor is raised as in the manner amended in claim 42.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tu Ba Hoang whose telephone number is (571) 272-4780. The examiner can normally be reached on Mon-Thu from 6:00AM to 6:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Elvin Enad can be reached on (571) 272-1990. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
